

3:15 - 3:30 PM

Wrap-up

(Ask everyone to be seated at their tables if they are not already there)

“To wrap up, we would like to thank you all for taking time out of your busy schedules and participating in the We’re Ready! Workshop. There was a lot of learning and a lot of laughter. What a great day. There are certificates of completion at the table over there (point) with your names on it. We will hand out certificates when you return the lanyard.

For those of you who have indicated you would like to be notified of similar workshops in the future, we will be in touch. As I mentioned earlier, we are planning to convert this 1-day workshop into a 2-day course for community leaders. It will be a train-the-trainer type of course that will provide the tools for community leaders to run their own workshops. There will be notifications circulated closer to the date. Some of you may already want to run your own workshops this summer. If that is the case, contact us and we will see what kinds of resources you need.

If you have any questions or comments for the organizers, we will be around for about 10 minutes cleaning up and are happy to chat. You can also send us an email (point to contact info on whiteboard). Have a great rest of your afternoon and weekend.”
